

Installing your sample iPhrasefinder on your Mobile

Important: Make sure you have sufficient memory on your mobile phone to accommodate the iPhrasefinder. You will need approx. 2.2 MB of free space.

1. Connect your mobile phone to your computer using a data cable
2. Open the iPhrasefinder folder you saved to your computer
3. Double-click the JAR file to begin the installation
4. Select where to store the application on your phone
5. Follow the installation instructions on your mobile phone screen
6. Select 'install'
7. Once the programme has been installed, you should see an alert telling you installation has been successful. You are now ready to start using the iPhrasefinder on your mobile.
8. Access the iPhrasefinder via your mobile phone's applications menu
9. Click on the iPhrasefinder icon, then click on the cover screen
10. Select your area of interest e.g. Food & Drink
11. Choose a phrase
12. Click on the phrase and press 'Play' to hear the translation
13. Use the 'Back' button to move back
14. To uninstall, use the applications manager on your mobile phone
